

Our reports

In July 2017, our remit was extended to include inspections of England's fire and rescue authorities. This is our second annual report on the fire and rescue inspections we have carried out.

© Cleveland Fire Brigade

The pandemic meant that we suspended all inspections for several months. This affected the number of reports we published this year. The reports we publish help us to fulfil our statutory duty to inspect the effectiveness and efficiency of fire and rescue authorities in England.

Every report has been published in full on our website and given to the fire and rescue service it relates to.

Revisit letters

When we identify a cause of concern, we require the service to produce an action plan to resolve the concern. We monitor progress against this plan. In relation to causes of concern relating to effectiveness, we usually carry out a revisit – and further revisits if necessary – to assess progress against each plan. Following each revisit, the regional HMI provides written feedback to the chief fire officer. Each letter is published in full on our website. In the period covered by this report, we sent and published revisit letters in respect of:

- The London Fire Brigade
- Northamptonshire FRS
- West Sussex FRS

Non-inspection publications

Memorandum of understanding between HMICFRS and Fire Standards Board

An agreement to ways of working between us and Fire Standards Board
